APPLICATION

- Application on bare or oiled wood (other finishes, use a stripper). Brush your wood to remove the excess dirt.

Dilute the cleaner in a proportion of 1 to 2, for example 1L of product in 2L of warm water.

- Pressure washer application: Put your mixture into the tank of the pressure washer. Spray the surfaces to be cleaned. Leave it for 10 minutes and then rinse with clean water.

- Manual brush application: Put your mixture into a watering can or garden sprayer. Spray the surfaces to be cleaned. Leave for 10 minutes and then rinse with clean water. Brush vigorously with a hard bristle brush or patio brush. Remove dirt progressively. Rinse thoroughly with water.

V33 TIPS

- In the case of stubborn stains or heavily soiled wood, apply a few drops of undiluted cleaner. Scrub with a hard bristle brush and then rinse with water.
- Rinse the product well.
- Allow to dry for 24 to 48 hours before applying the finishing product.
